AOC ODM & Overseas Series

All-in-One PCs to international brand manufacturing standards — with built-in detachable 2600 mAh UPS battery

Product Overview

The AOC ODM & Overseas series all-in-one PCs are built to international brand manufacturing standards, combining a clean slim-bezel design with commercial-grade reliability. A built-in detachable 2600 mAh UPS battery keeps work running through sudden power cuts — ideal for offices, education and call-center deployments.

Key Configurations

Item	Specification

OEM / ODM Service

Logo printing, custom packaging, BIOS branding and flexible hardware configuration are all available in our 16,000 m2 factory with a daily output of 6,500 units. From flexible MOQ trial orders to mass production, one source factory covers it all.

Quality Control & Testing

ISO 9001:2015-controlled production flow: incoming IQC, multi-stage sampling, 100% aging & burn-in, drop-test validation and outgoing QC — backed by our own test labs on site.

Talk to a sales engineer

Send your requirement (model, quantity, target price) and get a formal quotation with lead time within **24 hours**. Samples and trial orders are welcome — MOQ-friendly for overseas channel partners.
